FOR IMMEDIATE RELEASE:

Boston, Ma, November 2003 - CDS Business Mapping, LLC a leader in online hazard mapping, announces three major enhancements made to Flood Insights:

- (1.) **Complete Nationwide Flood Map Coverage** – Allows users to get a flood zone determination anywhere in the United States!
- (2.) **Birdseye Geocoding** – Enables users to get the EXACT latitude and longitude of the subject property! This cutting-edge feature uses a combination of digital street files and aerial images to provide the most accurate geocode possible. (This will provide much more accurate results when checking for flood zones).
- (3.) **One-Click Ruler** – Provides users with a resource to check the distance from the subject property to any point on the map.

“With the enhancements we’ve made to Flood Insights, we can give appraisers a competitive advantage by saving them time and money,” says Dan Munson, Vice President of Sales and Marketing, CDS Business Mapping. For a FREE trial, go to: <http://www.floodinsights.com>

About FloodInsights.com

Flood Insights is used by appraisers and real estate professionals to make flood hazard determinations. A fast, simple and accurate software application, Flood Insights returns the Flood Zone, Community Number, Map Panel, Panel Date, Census Tract and all other pertinent information. Furthermore, it returns a map suitable for your appraisal reports!

About CDS Business Mapping

CDS Business Mapping, LLC., was founded in 1994 as a desktop mapping sales and consulting company. The company offers a full line of mapping software, data and applications for insurers. The company specializes in natural hazard risk assessment tools and natural hazards data. The company is dedicated to the creation and implementation of mapping solutions for the insurance industry.
